

1. Kartik Poramanik is an inspiration for us.

Do you agree? Why/Why not?

Yes, I agree. Kartik Poramanik is an inspiration for us. According to our text book Kartik poramanik started planting trees at the age of 10. He has planted thousands of trees in his village. Many of this are now 35-40 years old. By planting trees, this illiterate man is living his signature all around the nature. It proves that "A man is over remembered by the work, not words" at last we can say he is a true nature lover and inspiration for us strongly. So we take inspiration from Kartik Poramanik and we should plant more and more trees. We also inspire other people to plant trees.
